

Practical Work (W22B61)

Course ID	Name of Course	Type	Sem	SKS	Description
W22B61	Practical Work	M	6	2	Practical work/internship courses are student activities in order to practice the knowledge they have acquired during lectures. The purpose of practical work/internship activities is to help students recognize organizational management, problems that arise in the field of work, and problem-solving in practical work/internship institutions. In addition, practical work/internship can be used by students in the context of preparing their final project and adding insight into the field of work for students. Practical work/internship models include problem-solving in practical work/internship institutions and/or the application of science and technology.
